

Maybe it's better to worry
with all these little crises. Now
you take the Cuban problem.

Yours faithfully,
J. A.

NEINDA PHILOSOPHER TRIES TO SOLVE THE CUBAN PROBLEM, BUT RUNS INTO A BLANK WALL

Editor's note: The Neinda Philosopher on his Johnson grass farm on route one looks at an international problem this week, then backs away.

A lot of people have been worrying about what to do about Cuba and I got to thinking—not because I didn't have anything else to do, that's a waste of thought, the time to think is when you have got something else to do—and I have decided the people aren't thinking big enough.

Say somebody figured out what to do about the Cuban problem; it wouldn't last. Another problem would crop up some place else. We've had one crisis after another for years and now I've decided the thing is to put all our crises into one pile.

As I understand it, there are 103 countries in the world, as best the map makers can find out, and the way to eliminate all minor crises and put them in one lump is to arrange for each of the 103 to have guided missiles trained on all the others. Each country should have guided missiles zeroed in on every population center in every other country. I'll admit this would be a mess of guided missiles, but it's the only way out.

Then after you get all these missiles in place, invent a spectacular firing device that'll set off all of them if just one of them goes off.

With everybody in the world then looking down the barrel of a guided missile, who'd be interested in shooting first?

You have no idea how reason-

facts based on experience and daily familiarity with the subject which enter into a sound, consistent policy of administration can never be presented to a court in a single case, and point out that appeals by different parties on the same subject might go to different courts and receive entirely different answers. They argue that de novo rulings by the courts in all the situations allowed by this amendment would make it impossible for the average citizen to know what his rights were or what he was supposed to do.

for compensation. These are factual and legal decisions similar to court action. It is important to note that the proposed amendment is not limited to such situations. Courts could be deciding all sorts of details of actions, rulings or decisions of administrative agencies and executive departments.

Courts and court facilities and adjuncts would have to be multiplied many times over if such procedure were adopted. The courts, especially in the most populous counties, are already overburdened and if they should be further burdened by a multitude of such administrative details, some feel that this could result in a virtual breakdown of our whole judicial system. It has been pointed out that there are thousands of administrative agencies, administrators and executives from whom an appeal could be taken whereas the entire State has only 161 regular civil district courts.

The daily details of work by executives and administrators in government, as in a business operation, are informal, based on experience and facts which it would be difficult and oftentimes impossible to get before a court completely under the rules of procedure. Sometimes quick action is imperative. At the best, carrying all these matters to court would be a slow, cumbersome and costly process.

The proposed amendment contains a most unusual provision. It provides that in the absence of legislation enacted after adoption of this amendment "all such appeals" shall be handled in the manner now provided by law as interpreted by the Appellate Courts on the date of adoption. The interpretations of "the Appellate Courts of Texas" as of the date the amendment was passed would in effect become a part of the Constitution unless and until changed by later enactment of laws by the Legislature.

The broad grant of power given to the Legislature is not limited to the de novo provisions. The Legislature would be given complete power to provide for appeals to the court under such provisions and limitations as it deemed necessary and desirable, and the courts of Texas would have no power or authority to refuse, deny or change the manner of an appeal made from the action of

COLUMN-

(concluded from page one)

Illinois \$206.04; in Michigan \$216.79; in New Jersey \$208.90; in New York \$287.54.

There is a strong campaign among the liberals of Texas to keep their followers home Tuesday for the sole purpose of gaining control of the democratic party of Texas.

So unless you are a Republican or plan to become one, I would urge you to vote for John Connally and the other democratic nominees next Tuesday. Just by voting republican this time to bring two party government to Texas, will in this writer's opinion, be a mistake.

It seems strange to me that the big issue against Connally is his supposedly ties to Washington. This seems strange because the liberals fought Connally during the primaries because he wasn't a New Frontier democrat.

Texas has flourished for the past six years because of the failure to enact a tax measure that would meet the needs of the state. Because of this, I do not think that we can afford to waste another two or four years feuding between the governor and the legislature.

Jack Cox could have probably been elected governor of Texas had he stayed in the Democratic party but since he has been fit to change parties he is doing the state, I am sure he loves, a disservice.

Because the issue in this election is not so much between the candidates as it is between the two parties, this paper is endorsing John Connally for governor along with the other democratic nominees.

Of the 14 amendments to be voted on Tuesday on the same ballot, this paper recommends the passage of proposition 4 and the defeat of proposition 14.

Proposition number 4 calls for the construction or enlargement of reservoirs by the state of Texas itself. The purpose of this amendment is to encourage the optimum development of the limited number of feasible sites available for the construction or enlargement of dams. This amendment would protect the people of Texas against the waste of dam sites by underdevelopment because of lack of financing.

Proposition number 14 in the famed "Trials De Novo" amendment and most authorities agree

that it would not only hamstring administrative agencies but would also over burden our system of courts.

No recommendation is made for the other 12 amendments to be voted on.

The following is the final in a series of articles analyzing the 14 Constitutional Amendments to be voted on November 6 by the citizens of Texas. These analyses were prepared by the Texas Industrial Council.

PROPOSITION 14 TRIALS DE NOVO ON APPEALS FROM RULINGS OF ADMINISTRATIVE AGENCIES

Proposition 14 (House Joint Resolution No. 32) would give the Legislature authority to an appeal is made to the courts from any and all actions, rulings or decisions of the administrative agencies and executive departments of the State of Texas or any of its political subdivisions.

This amendment would add a new Section 2 to Article II of our Constitution. Article II sets out the powers of government and has only one section. Section 1 provides that "the powers of the government of the State of Texas shall be divided into three distinct departments," which shall be the legislative, executive and judicial. It states that "no person, or collection of persons, being one of these departments, shall exercise any power properly attached to either of the others, except in instances hereinafter expressly permitted."

This is, from a constitutional viewpoint, the most important of all the proposed amendments to be voted on in November. It would result in a substantial change in the constitutional division of power between the legislative, executive and judicial branches of our government. There is no similar provision in our national constitution or that of any other state.

The dictionary defines de novo as meaning "over again." These Latin words also have a particular legal import, meaning "anew," "afresh." A trial de novo means that the court hears a case and reaches its own decision as if there had been no prior consideration of it. Under this amendment the Legislature could provide for "such appeals to be tried completely de novo and independent of any administrative or executive action." On appeal de novo under this amendment

the court would be required to substitute its judgment as to both policy and its application for that of the responsible executive or administrative agency.

Administrative agencies for which statutory provision has been made include, according to Texas Jurisprudence 2b, "the board of control, county commissioners' courts, housing authorities, the public welfare department, the soil conservation board, the state board of health, the state anatomical board, and zoning commissions."

"Agencies having regulatory powers with respect to professions and occupations include the board of architectural examiners, the board of barber examiners, the board of chiropractic examiners, the board of dental examiners, the board of embalming, the board of law examiners, the board of library examiners, the board of medical examiners, the board of optometry examiners, the board of pharmacy, and the board of veterinary examiners."

"Agencies exercising powers in respect to commerce and industry include the commissioner of agriculture, the finance commission, the industrial accident board, the board of insurance commissioners, the liquor control board, and the railroad commission."

In addition to these, other agencies for which statutory provision may be made hereafter by the Legislature, the elected officers of the State and other officials and departments of the State's political subdivisions would be among those referred to in this amendment.

Over the last few decades there has evolved a considerable body of what is called administrative law, particularly at the federal level. The courts have deferred to the judgment of administrative departments who specialized experience is assumed to make them better prepared to understand the facts and to fashion the proper remedies for the type of case which the law says shall first be decided by them.

A feeling of distrust of administrative law and procedure and a demand that each person have his day in court, probably is the major reason advanced for the proposed amendment.

Administrative law has had a limited growth in Texas. In such laws as unemployment compensation and workmen's compensation, trial de novo is applicable to an appeal from administrative decisions about the eligibility of an individual

FREEDOM

Inscription for the Statue of Liberty

BY EMMA LAZARUS

Give me your tired, your poor,

Your huddled masses yearning to breathe free,

The wretched refuse of your teeming shore,

Send these, the homeless, tempest-tossed, to me:

lift my lamp beside the golden door.

This truly reflects the attitude of a nation living close to God. The concern and love for others grows through Christian fellowship. Attend Church Regularly.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

Sister Dies in Dallas October 24

Mrs. Jewell Mack of Dallas sister of Mrs. M. E. Waggoner, Hamlin, died at her home October 24. Funeral services were held Friday at Sorrells and Sons Funeral Chapel in Greenville with the Rev. W. O. Majors officiating. Burial was in Simonds Cemetery.

Born January 31, 1897, in Jones County, Mrs. Mack was the daughter of the late Dottie and Pearl Durham Willis. A member of the Methodist Church she was a former resident of Anson and the Neinda community. Her husband, J. A. Mack preceded her in death.

Survivors include one son, 2 daughters, 5 brothers, and a sister, Mrs. Waggoner; 2 grandchildren and several nieces and nephews.

FAIRVIEW NEWS

By MRS. ELMER JOINER

About a half inch of rain fell early Sunday morning, making everything wet again after last week's big rain. No frost has come yet, but everybody is hoping for one.

After a long delay, construction will start on the rest room at the church this Monday morning, if nothing else happens. A carpenter is due to do the construction work, then Saturday the pastor is planning to put the plumbing in, provided he can get some help from the members. This is something that we have all looked forward to having for a long time. Everyone will be glad to do whatever they can to get it completed.

Several visitors were in our Church Sunday morning. Mr. and Mrs. Boren and Dewayne, sister of the pastor, from Stamford, were present. Mr. and Mrs. Buford Griffin and three children, who reside southeast of Hamlin, and really in our community, were also visitors. We urge all visitors to come be with us.

Mr. and Mrs. Fred Rosenbaum went to Lamesa last Monday to visit with Mr. and Mrs. Arthur Moss. They returned on Tuesday.

Mr. and Mrs. Archie Hogan of Spur visited with the Woodrow Goodwins and other relatives Sunday afternoon.

Mr. and Mrs. Jimmy Holmes of Midland spent the weekend with his parents, Mr. and Mrs. Flavil Holmes.

Mr. and Mrs. Elmer Joiner went to Stamford Sunday afternoon to see their children, Mr. and Mrs. Jimmy Joiner and children.

Rev. and Mrs. Derrel Lewis and children, were guests of the Winslow Grays, for lunch Sunday.

Sunday afternoon, Rev. and Mrs. Doyle Combs and children, former pastor, and now of Swenson, also visited in their home. Rev. Combs had led the singing during the week-night services at the Faith Methodist Church last week for the Revival, and after preaching at his church Sunday morning, they came to the church as dinner guests.

Mr. and Mrs. Elmer Smith of Carlsbad, New Mexico spent the weekend with her two sisters, Mr. and Mrs. Elmer Joiner and Mr. and Mrs. Woodrow Goodwin and Linda. They all spent the time together, eating and catching up on all the latest news in each family. The Smith's will visit with their daughter, Mr. and Mrs. Pete Hatch and boys, Shamrock, Texas, before returning home.

We are glad to report that Mr. Ford and Mrs. Henry were both recovered enough to be in church again Sunday. Mrs. Henry still suffers from the wrench she gave her back when she lost control of her car last week and ran in the ditch, but it is much better.

Mr. and Mrs. Fred Rosenbaum went to see Mr. and Mrs. Joe Ford last Friday night, then Saturday night they visited Mr. and Mrs. Winslow Gray. Elmer Joiner visited with Mr. Ford Thursday morning.

Midweek service attendance was up a little Wednesday night. If you want to hear some singing nearly equal to the Stamps, just come be with us on Wednesday night. We try them all and manage to get through them, we enjoy it and we think it sounds pretty good.

The pastor announced Sunday night that he is planning a series of sermons for Sunday night, based on doctrine, entitled, "These Things We Believe." If you want to know what the Baptist really believe then plan to attend these services.

It seems that the world situation has eased some at the present time, for which we are all thankful from the bottom of our hearts. We hate to think that such a thing as a nuclear war could happen to us, but the events of the past week brought it close to us and it was a terrible thing to contemplate.

The Secret Pal party of the Ruth Sunday School Class was put off last week until Friday night of this week, it will still be held in the home of Mrs. Flavil Holmes.

Rambler Sales Hit All-Time High in 1962

DALLAS — Rambler retail sales in the Dallas Zone of American Motors climbed to an all-time record in the 1962 model year, according to L. T. Kouns, zone manager.

Early sales reports on the 1963 models indicates that another record year is in the making, Kouns added.

The Dallas Zone covers Rambler dealers in northern Texas

and most of Oklahoma and New Mexico.

Zone sales rose to 13,194 Ramblers a 37 per cent gain over the 9,651 sold in the 1961 model year.

Nationally, dealers sold 431,397 new Ramblers in the 1962 model year, setting a new all-time record. A year earlier sales totaled 374,642. The company's 1963 model year sales goal is 550,000 Ramblers.

Kouns said the 1963 Ramblers have received an "unprecedented customer appearance." Dealers report that the all-

new styling has received especially favorable comments, with high praise also going to the quality of workmanship.

To meet the record demand, American Motors is building Ramblers on a two-shift six-day basis.

Just over \$1 billion has been transferred to the Railroad Retirement Trust Fund from social security receipts in the past 15 years.

SHOULD THE BRIDE WEAR WHITE

Dear Amy:

Can a woman who has had an intimate relationship with a man before she is married get married in white and have a large church wedding?

Betty

No, she shouldn't, but suit yourself. (Why not wear a suit!)

Dear Amy:

I was married when I was 14 years old. I now have a little girl four months old. Well, the problem is my husband wants me to go back to school. I want to go to work although I don't have to. But going back to school married I would seem out of place. So my husband said if I don't go back to school, I am going to find myself pregnant again and that's something I don't want. I am almost sixteen now and have a job waiting for me. So, should I go back to school or should I go to work?

B.J.

Go back to school as your husband wishes, since, in my opinion, he is right. However, not day school. Attend an adult evening school.

You have a job, a very important one: taking care of your daughter! Stay home and do a good job!

Dear Amy:

My little brother is two years old and he loves toy guns. Every time when company comes he sticks the gun at them and says, "Bang you're dead," and he feels their pockets and says, "Got any money?" I don't mind him playing with toy guns but he embarrasses me half to death. Could you give me an idea how to stop him shooting up our company?

Stephen

That's your Mom's problem but you can help by playing the part of the "Marshall." And you know his job. Check the guns on the way in and pick 'em up on the way out . . . the door.

Dear Amy:

You asked "Another Prisoner of

McBride Circle Meets with Mrs. Parker Kelley

The McBride Circle met with Mrs. Parker Kelley with 9 members present. Mrs. Bill Davis presided over the business session.

Mrs. James Harrison presented the program. The program was the annual special program, the Week of Prayer and Self Denial. A special self denial offering was taken. The program was closed with prayer by Mrs. Harrison. The McBride circle will meet with Mrs. H. L. Mehaffey in November.

Miss Rountree Elected Prexy of Baptist Y. W. A.

Mary Debs Rountree was elected president of the Y.W.A. girls of the First Baptist Church at a meeting in the home of Sue Johnson.

Other officers elected were Joyce Smith, vice president; Gloria Jenkins, secretary; Judy Jenkins, assistant secretary; Rose Lovell, program chairman; Lynn Ann Miller, community missions chairman; Janette Pruitt, social chairman; Donna Pruitt, prayer chairman; and Sue Johnson, Stewardship chairman.

The Y.W.A. watchword was repeated and Donna Pruitt read the prayer list.

Refreshments were served by Donna and Janette Pruitt, Mary Debs Rountree, Johnnie Harbert, Judy and Gloria Jenkins, Lynn Ann Miller, Rose Lovell, Joyce Smith, Sue Johnson and the counselors, Mrs. Kenneth Riddle and Mrs. J. O. Murphree.

The next meeting will be in the home of Joyce Smith Monday at 5:30 p.m.

Friendship HD Hears Report on State Convention

Fourteen members and three guests attended the meeting of the Friendship Home Demonstration Club held Friday at the Oil Mill Guest House.

Mrs. Karl Bonneau of Merkel gave a report on the Texas Home Demonstration Association convention which was held in Dallas.

Other guests were Mrs. W. L. Roe of Winslow, Arizona and Mrs. L. R. Faulkenberry.

The next meeting will be a luncheon November 9, at the Oil Mill.

Beta Theta Plans Annual Fund Raising Project

Beta Theta Chapter of Beta Sigma Phi met Wednesday, October 17, in the home of Mrs. Billy Jo Wilson.

The club's annual money making project to cover all charity work of the club was discussed. It was voted to have a game night for forty-two and bridge in the primary cafeteria on December 1, at 7:30 p.m. Door prizes will be given and pie and coffee will be served. Admission price will be \$1.00. Tickets will be sold soon by members of the Beta Theta chapter.

Mrs. Tim Jones showed colored slides of their vacation and trip to the World's Fair in Seattle.

Refreshments were served to the following members: Mmes. L. C. Bonds, James Harrison, Brannon, W. A. Hawkins, Dewey Nunley, Floyd Clifton, Tim Jones, and W. T. Johnson.

Literary Club To Hear Review

Mrs. A. B. Carlton will review the book, "What Ivan Knew that Johnny Doesn't" by Arthur S. Trace, Jr., at the meeting of the Woman's Literary Club at 3 p.m. Friday.

Mrs. John D. Ferguson will be hostess for the meeting and Mrs. C. F. Cook is program director.

HHS Library Club Initiates New Members at Social

The Hamlin High School Library Club met Monday night, October 22, at 7:30 in the high school auditorium. Mary Lois Patterson, president, called the meeting to order. She announced that the library club had been given permission to use the showcase in the center hall for bulletin board displays. Committees were appointed to change the display every week.

The purpose of the meeting was to initiate new members who were asked to take part in a talent show. Lewis Lawlis, vice-president, arranged the program for the evening. After the talent show, a skit entitled "Why Librarians Turn Gray" or "How to Wreck the Library" was presented in the library. Those participating in the skit were Jerry Cooper, David Bingham, Lewis Lawlis, Anna Adams, Nancy Ford, Barbara Graham, Sue Martin and Mary Ann Elkins who portrayed Mrs. Nunley, librarian and sponsor of the group.

Following the skit punch and cookies were served to the forty-one members present.

School Menus

Monday, Nov. 5
Scolloped potatoes with cheese
Green beans
Carrot salad
Applesauce
Hot rolls, butter and milk

Tuesday, Nov. 6
Steamed franks
Pinto beans
Buttered spinach
Garden salad
Cherry cobbler
Cornbread, butter and milk

Wednesday, Nov. 7
Turkey and dressing
Giblet gravy
English peas
Congee salad
Relish tray
Hot rolls, butter and milk

Thursday, Nov. 8
Hamburger steak
Fluffy whipped potatoes
Blackeyed peas
Lettuce wedge with french dressing
Pear half
Hot biscuits, butter and milk

Friday, Nov. 9
Tuna and cheese sandwiches
Buttered corn
Macaroni and tomatoes
Dill pickles
Peanut butter cookies
Milk

Mrs. M. L. Smith Gives Program for Xi Gamma Pi Oct. 25

"Clothing for Madame" was the topic of the program presented by Mrs. M. L. Smith at the meeting of the Xi Gamma Pi Chapter of the Beta Sigma Phi held October 25 in the home of Mrs. Weldon Carlton.

Mrs. C. Weldon Griggs, president, presided during the business meeting.

Those attending were Mmes. E. J. Hawkins, John Bryant, Jerry Waggoner, Holly Toier, W. T. Johnson, Ed Boaz, Smith, Griggs and the hostess.

Duplicate Bridge Winners Revealed

Winners of this week's meeting of the Duplicate Bridge Club are Mrs. Henry Albritton and Mrs. Weldon Carlton, first; Shirley Willingham and Maxine Russell, second; and Jack Russell and Frankie Sue Wilson, third.

Next meeting of the club will be Tuesday, November 6, at 7:30 p.m. at the Mid West Co-operative Oil Mill Guest House.

Study Club Plans To Meet Friday

The Fifty-Two Study Club will meet Friday at 3 p.m. in the home of Mrs. Ted Russell with Mrs. Jack Russell as hostess.

Mrs. Noel Weaver will serve as moderator for the round table discussion on the subject of "Our Youth In Orbit." Mrs. Tommy Davis is the program director.

Faith Methodist WSCS Observes Week of Prayer

The Week of Prayer and Self Denial was observed by the Woman's Society of Christian Service of the Faith Methodist Church with an all day program and prayer service.

Mrs. O. C. Stice, Secretary of Spiritual Life, and program director, was assisted on the morning program by Mmes. Bill Dominey, Pauline Harris, Zeola Gould, John Barnett and Oscar Hodo.

IT NEVER FAILS

HEATING EQUIPMENT SHOULD BE CHECKED NOW FOR SAFETY

Heating equipment should be checked now to help assure maximum comfort and safety during the coming winter months.

This reminder came today from Lone Star Gas Company Manager Lester Minton, who urged that heating equipment be checked before cold weather sets in. Minton suggested these safety precautions:

1. Have heating equipment and vent pipes inspected for safe and economical operation. If adjustments are required, call a qualified serviceman.
2. Be sure that your heating equipment has a source of fresh air. See that the gas burns with a bright blue flame.
3. Use only metal connectors approved by the American Gas Association. Do not use rubber hose.
4. Keep clothing, furniture, curtains, and other combustible materials away from heating equipment.

"By taking these simple yet essential precautions," Minton said, "homeowners will eliminate possible accident hazards and will make their homes comfortable for the winter season."

They won't let you ride in an airplane unless you fasten your seat belt. The airplane mileage death-rate is much lower than the traffic death-rate. So . . . fasten your seat belts when in your car.

PIPERS DROP SECOND GAME, LOSE TO WINTERS '11', 14-6

Failing to capitalize on two scoring opportunities, the Pipers lost their second conference game Friday night to Winters, 14-6, in a game at Winters. A Piper drive stalled on the three yard line in the first quarter and in the second period Hamlin made it into the end zone but fumbled and Winters recovered.

Both of Winters tallies came in the second period while Hamlin's only score came with 19 seconds left in the game.

Kicking off to Winters, the Pipers took the ball on their own 44 when Nicky Moore covered a Blizzard fumble after the Winters eleven gained 24 yards in four plays.

Moving from his 44, Dan Newberry picked up 18 yards in three plays and Pearce added two. Dan carried for two and a first down on the Winters 34. Larry Butler picked up five, Robert Pearce was held for no gain and then Dan was thrown for a two yard loss. With fourth and seven Van Newberry connected with Butler on a pass play good for 20 yards to the nine. Dan gained one, Butler one, Van one and then Dan was stopped at the 3 yard line to end the drive.

Moving from their 3, the Blizzards covered the 97 yards to paydirt in 22 plays, scoring on a one-yard plunge. The kick for the point-after was wide and the Blizzards led, 6-0.

Trying to pick up the kickoff on the run Butler made a miscue and Winters recovered on the Hamlin 24. Eight plays later Winters tallied from the four. The try for two points was good and the Blizzards took a 14 point lead.

Following the kickoff Hamlin was forced to punt when they failed to gain a first down. Winters drew a 15 yard penalty for clipping on the punt return and ended up back on 23 when they recovered a Blizzard fumble at that point.

Dan carried for four to the 19 and Van ripped off 12 yards to the Winters seven. Running with a first and goal at the seven Pearce was stopped for a

one yard gain. Dan picked up four yards to the two, and Van crashed into the endzone but lost possession of the football and Winters recovered to give them the ball out on the 20. Picking up 12 yards the Blizzards ran out the clock in three plays.

The Pipers took the wind in the third period and kicked off to the Blizzards and then stopped the Winters drive on the Hamlin 39. After three plays, Hamlin punted and then gained possession of the ball again on the Hamlin 49 when Van intercepted a Winters pass.

Six plays later the Pipers owned a first and ten on the Winters 23 yard line. But at this point they drew a five yard penalty and then lost six yards. A 16 yard pass play and a two yard plunge failed to gain the first down and Winters took over on the 17.

Winters moved the ball out to their 39 from where they punted with Hamlin putting the ball in play on their 33.

From this point Van put on a one man drive as he passed and ran the 67 yards for the Piper score. Opening the drive he hit Dennis Kelley with a 16 yard pass play. His next two tosses went astray and Van ripped off four yards on the ground before going to the air again with a 26 yard pass to Kelley. Going with a first down on the Winters 21, Van was thrown for a six yard loss trying to pass and his next try missed. Running on the pass option play Van carried 14 yards to the 13 and then gained two yards on the quarterback sneak for a first down at the 11. Going back to pass again Van

EXTENSIVE STUDY MADE ON BEEF PRICES BY ECONOMIST

College Station—Many factors affect the price producers receive for beef cattle. The slaughter rate, however, is the most important single factor and exerts the greatest pressure on beef cattle prices, says John McHaney, extension economist.

The rate of slaughter is determined, he adds, by the size of the nation's cow herd at the beginning of the year, size of the calf crop, range conditions,

number of cattle fed and marketed and liquidation of cattle numbers. Total production of red meat — beef, pork, lamb and mutton — is also an important pricing factor, he says.

In order to show what happens to beef prices under a given set of conditions, McHaney has made a study of price changes over the past six years — 1956-61 and has related them to the average prices received by Texas producers for all calves.

On January 1, 1956 the nation's beef herd numbered 95.9 million head. A large calf crop was produced and one of the worst long-run droughts continued. A record number of 40.8 million cattle and calves was slaughtered. Calf prices dropped to an average of \$12.40 per hundredweight in December 1956.

Greatly improved range conditions in 1957 slowed slaughter, especially in the late months of the year. The na-

tion's cow herd was smaller and fewer calves were produced and total red meat production was down from the previous year by 4 percent. Demand for restocking animals and for feeders was strong and high consumer income also helped push prices from \$14.70 in January to \$20.70 in December.

Cow numbers on January 1, 1958 were again below year earlier figures and the nation's calf crop was also down. Cattle and calf slaughter was down 13.5 percent from 1957; range conditions were the best in years; total red meat production was the lowest since 1954 and a build-up in cattle numbers started. Prices reached \$26.60 in December. (Average price for all calves).

Cattle and calf numbers stood at 93.3 million head on January 1, 1959 — up 2.1 million from a year earlier. The build-up was gaining steam; slaughter was down 7 percent

the latter part of the year. Total red meat production was second only to record 1956. Prices reacted to the pressure and dropped from \$28.60 in March to \$21.60 in December.

The price decline continued into 1960. The year started with 96.2 million head, up 2.9 million from 1959. Total red meat production was up 3.3 percent and beef and veal 8 percent. The number of cattle and calves on feed July 1 in 21 major states was up 4 percent and total slaughter from August-November was up 14 percent over the same period in 1959. Calf prices dropped to \$18.50 in October but a mild reduction in fed cattle marketings in the last 2 months of 1960 and fairly good wheat grazing kept many cattle off the market. Prices reacted, rose to \$22 in December.

A revision downward of estimated cattle numbers in 1961 gave producers confidence; a

pickup in economic activity upped the demand for beef and good wheat pastures created a strong demand for stockers, and this plus good range conditions, kept many cattle away from packing plants. These factors, along with only a 1 percent increase in red meat production, kept prices stable and above the previous year.

On January 1, 1962, the nation's beef herd stood at 99.5 million head, up 42 million from a year earlier. Recent increases — numbers up for 4 consecutive years — says the economist, indicate that beef production records are due to be set within the next few years. The effect of increased supplies on prices cannot be specifically pinpointed but the price depressing force is certain. Cattle producers are advised to be alert to possible increases in pork production coinciding with larger beef supplies sometime during the next two years.

OLD GLORY ...

SCHOOL: Friday, students at Old Glory welcomed back Mrs. Maxine Klump, English teacher, who has been on leave to be with her parents while her father was receiving treatment at Bethenia Hospital at Wichita Falls. In her absence, Mrs. Marvin Lott of Aspermont taught her classes.

School paper this past week was edited by the Freshman class under the supervision of Mrs. Lott. They really did themselves proud for their first experience in the field. Larry Quade and Anita Jernigan helped them out by typing the paper.

Halloween was very much in evidence Friday when weird noises were heard and odd looking creatures floated around the halls of the elementary grades. Apparently a good time was had by all and refreshments were suited to the occasion.

The Old Glory basketball teams played Noodle and Peacock this past week.

The Old Glory teams won both games.

PERSONALS:

Mr. and Mrs. Edwin Rinn have returned home after visiting several days at Houston with relatives.

Mrs. Cliff Gholson and Linda were in Fort Worth last week to visit with their daughter and sister, Mrs. Terry Clark who was ill. Mrs. Clark is recovering nicely.

Miss Judy Garner, student at Lubbock Christian College, spent the weekend with her family, the John L. Garners.

Miss Donnice Sawyers, student at Lubbock Christian Col-

lege visited with her parents and relatives over the weekend.

Tommy Letz, student at Texas Tech visited with his parents over the weekend.

Sandy Leverett, student at John Tarleton College, spent the weekend in Old Glory with his family, the V. R. Leveretts.

Bobby Hunt, student at Sul Ross College at Alpine, visited at home with his parents, Mr. and Mrs. Bob Hunt last weekend.

Miss Nancy Robinson, former student at Draughon's Business College in Abilene visited with her parents, Mr. and Mrs. Dobe Robinson this weekend and plans to go to New Mexico to work.

Mr. and Mrs. Bill Bell and family of Lovington, New Mexico visited this weekend with her parents, Mr. and Mrs. Dobe Robinson.

Miss Cathy Erdman, student at Draughon's Business College in Abilene visited her parents, Mr. and Mrs. Beno Erdman this weekend.

Mr. and Mrs. V. R. Leverett and Jimmy were in Abilene on Saturday for business and to visit their daughter, Clarice, who is a senior student at Abilene Christian College.

Mrs. C. E. Price of Pittsburgh Texas, mother of Mrs. L. M. Boles, and visiting in the L. B. Boles home had the misfortune to fall over a chair last week and the accident resulted in a crushed shoulder. The doctor applied a cast and Mrs. Price is recovering nicely.

Time marches on, changes are made and old friends and relatives have to separate. It happened just that way at Old Glory recently, when Mrs. A. L. Flowers moved to Stamford. She had been living here since she married Lloyd Flowers in May 1921, and moved to the farm of Lloyd's parents, the late Mr. and Mrs. Henry Flowers, who settled here in 1900.

For the first time since 1909, the village of Old Glory is devoid of a single person named Flowers. A. L. (Lloyd) Flowers began working in a "general" store in 1909. For a time he and his brother, the late W. H. Flowers, who moved to Old Glory in 1916 from his father's farm, operated a grocery store in Old Glory. About 1919, the Flowers sold out, and other merchants have operated the store.

Again in 1924, Mr. and Mrs. A. L. Flowers left his father's farm to move to Old Glory to operate a store, groceries, dry goods and hardware. At the death of Mr. Flowers in Oct. 1961, his wife continued to 'carry on' until she sold her home to Mr. and Mrs. George Rhoads, who operate the Rhoads Grocery here. The Flowers store building was sold to Ed Letz, so closes a long era of Flowers.

Final plans were made for the Thanksgiving Supper when the Variety Club met Tuesday

STERILE FLY RELEASE AREA INCREASED IN 'WORM' FIGHT

Extension of the sterile fly release area and changes in the fly release rates were announced by officials of the South-Program last week. The latter will put a heavier burden of responsibility on individual livestock producers. Kirby Clayton, Jones County Agent said.

An additional 10,000 square miles are being included in the fly release area in western Texas and the number of flies will be stepped up in some areas and reduced in others. While definite release rates have been designated for all areas, this will tend to vary according to the number of confirmed screw-worm specimens sent to the Mission Laboratory for identification. Thus, says Clayton, the producers, themselves, will largely determine how many flies they will get each week. This, of course, affects only those counties within the fly release area.

The additional area is composed roughly of the territory encompassed by a line running west from the old line along the Sutton-Schleicher County line, passing just south of Ozona and Sheffield and continuing westward until it intersects with a line coming north from the U.S.-Mexico border and passing through Sanderson. This line could vary somewhat, officials have said.

This new release area will receive 600 sterile flies per square mile per week. The Edwards Plateau and surrounding territory where native flies still exist in large numbers will receive 1,000 flies each week. The areas in southern Texas where fewer screwworms cases are being detected will receive 400 flies per square mile each week.

Program officials will be watching the number of specimens confirmed as screwworms which are sent in to the laboratory each week by livestock producers and livestock inspectors. This will largely determine whether the number of flies being dispersed in any area should be increased or reduced. So, says Clayton, it is up to producers to check their livestock on a regular basis and send in samples, unless they want to run the risk of having the number of sterile flies released in their area reduced.

He said producers should put about 10 maggots or worms from a wound in a container of alcohol or water and send it to Box 969, Mission, Texas.

Care Urged in Handling Cotton To Avoid Trash

College Station—Do you have any idea how much trouble an old coat or colored handkerchief can cause in a bale of cotton bound for the textile mill? Beverly Reeves, extension cotton ginning and mechanization specialist, Texas A&M College, says that colored threads mixed with the lint can be very expensive to the spinner.

Reports from textile mills indicate that they are having considerable trouble with colored yarns and fibers in the bales of cotton, Reeves says. Often the foreign fibers are not detected until they have been spun into yarn and may not be noticed until they are made into cloth. By then they have contaminated a large volume of material and the manufacturer suffers a great loss, the specialist explains.

The stiff competition cotton is receiving from synthetic fibers makes it important to use care while unloading the seed cotton and all during ginning process to reduce losses to the textile mill. Contamination usually occurs at the suction and a hat or sweater which accidentally gets into the gin here will be shredded and spread through many bales.

Removing the parts that contain such threads is costly to both the producers and the ginners. Farmers and ginners should make every effort to keep the baled cotton as free of foreign matter as possible, advises Reeves.

HIS REPUBLICAN OPPONENT

- Was twice defeated as a Democrat before switching parties
- Has spent his time attacking the President and Vice President of the U.S.
- Voted against increased pensions and farm-to-market roads, but campaigned for a pay raise for himself by pitching a pup tent on the Capitol lawn!

VOTE FOR PROGRESS. VOTE TO KEEP THE LOWEST TAXES OF THE 10 BIGGEST STATES IN THE NATION. VOTE DEMOCRATIC!

VOTE FOR JOHN CONNALLY FOR GOVERNOR!

Our Electric Service is efficient!

As pioneers of rural electrification, the people who established the electric cooperatives had to call on ingenuity and skill to build the electric systems that span the rural areas of Texas. There was no blueprint for such service to the remote rural areas. But armed with courage and the will to accomplish the impossible, these dedicated people built the electric systems that are a model of efficiency today.

The capable, competent people who operate these electric systems know more about rural electrification than anyone else in the world. That is why efficiency is more than a word, it is a way of life to these experts who are building a brighter tomorrow for more than a million Texas people.

Mid-West Electric Cooperative

ROBY, TEXAS

Texas so far this year, with 174 of them paralytic.

Last year at the same time there were 29 paralytic cases on record. One new case each was recorded in Bexar and Coryell Counties.

TRUCK HEARING—Truck operators who have applied for permits to haul fruit and vegetables over the State were cross-examined by attorneys for common carriers at a hearing before a Railroad Commission examiner here.

Some felt the hearing would last until Christmas. It is a continuation of similar sessions held earlier at San Antonio, Lubbock and McAllen.

More than 130 operators are seeking the permits authorized by the Legislature in 1961. Common carriers oppose granting the permits on the ground that there is no need for them.

ESCHEAT LAW—Reports to the State treasury department indicate there is approximately \$3,140,000 in personal property in Texas subject to the new escheat law.

So far the State has collected \$108,000 through three suits. But 346 reports of this kind of property have been certified to the attorney general. Involved is \$678,724 more.

It may turn out that the \$3,140,000 estimate is too high, so far as the state's expectations of getting the money are concerned. This since a lot of owners of the property are being found.

In other instances it was discovered that some property is not subject to escheat, or at least not yet.

Seven years have to elapse before the State can make a claim. At this stage, it appears that best 'mining' country will be old meter deposits.

TEXAS GROWTH—Industrial growth of Texas in the next 15 years is being projected by the State Industrial Commission in a brochure called "Goals for Texans."

It will be several weeks before the brochure is finished and ready for distribution. But Commission officials feel it can be adapted to the needs of any area or community with benefits for all.

Commission based its plan on National Planning Association studies, and got assistance also from the University of Texas Bureau of Business Research.

CRUDE DEMAND UP—Texas Railroad Commission reports that purchasers' nominations for Texas crude oil in November have increased.

November requests average 2,524,186 barrels daily. This is 33,853 more than for October.

Commission is expected to keep its 2-day schedule for prorated wells in November. This would increase the daily average permissible by almost 50,000 barrels.

October is the ninth consecutive month on 8-day production.

INTEGRATION VOTE—Texas' governor apparently won't be plagued with integration nightmares like Arkansas and Mississippi.

University of Texas students will vote on the subject November 14.

Vote will be on integration of living and dining facilities and the school's athletic teams.

Currently, Negroes take part in intramural contests, but there are no Negroes on varsity teams.

University cafeteria facilities are integrated and 15 Negro students live in an integrated men's dormitory.

University has one dormitory for Negro women but they are excluded from all other women's dormitories.

HIGHWAYS ON SCHEDULE—Texas is on schedule with its 3,033-mile portion of the 41,000-mile Interstate Highway System.

Program is reportedly running behind in other states.

Texas has consistently led all other states in completion of its portion of the superhighways since the program was initiated in 1956.

Texas' program also has operated at costs substantially below the national average.

PARKS A MESS—Texas State Parks are a mess. Some of them have no excuse for existence.

That's the jarring report given in the Texas State Parks Board by a newspaper reporter who toured the parks system.

Paul Timmons, associate editor of the Amarillo Globe-Times and News, reports that none of the parks are properly planned and many of them are little more than city parks in rural—and sometimes remote—locations. Others serve only to give access to lakes or streams. Some don't equal the competition of nearby resorts.

Planning now is being done at Texas Tech College under a \$70,000 contract with the State Parks Board.

SHIVERS MUM—Former Governor Allan Shivers is having nothing publicly to do with the November election for governor of Texas.

Shivers says he plans to make no public endorsement of any candidate. He is a friend of both candidates.

"I've stayed out of this so far," he says, "and I think I can for a few more weeks."

Shivers openly supported

Jack Cox, this year's Republican nominee for governor, when Cox ran unsuccessfully two years ago in the Democratic primaries against Gov. Price Daniel.

Cox changed parties this year.

SHORT SNORTS—Texas Supreme Court has upheld an opinion that this state's anti-trust laws supplement federal anti-trust laws and can be enforced simultaneously.

The State auditor's report discloses that it cost the state more than twice as much to maintain the House Speaker's office than it did that of the Lieutenant Governor's during the last legislature.

FORTY YEARS AGO

With the coming of cooler weather, social activities in Hamlin seem to have begun in earnest. All of the clubs are meeting regularly, and sandwiched in between have been parties of various kinds; but one of the most enjoyable affairs so far, was a luncheon given Nov. 8 by Mrs. D. Payne and Mrs. Bowen Pope.

The Woman's Literary Club cordially invites you to visit the Flower Show to be held Saturday, November the eighteenth, in the James Building. Various kinds of flowers will be for sale. A nice lunch will be served, beginning at eleven o'clock and lasting through the noon hour.

Misses Frances Edmonds, Estelle Isbill and Verna Smith came home from Simmons College to spend Armistice Day and remained over Sunday.

TWENTY-FIVE YEARS AGO

Printed as news in the Hamlin vicinity 25 years ago were the following items, taken from the issue of The Hamlin Herald dated November 5, 1937:

Hamlin has come to be one of the big cotton centers of Texas. There now are 12 huge warehouses practically full of government loan and privately owned cotton in the city.

Harden Hotel is now occupying the recently completed annex that provides a total of 25 rooms for the modern hotel.

Mr. and Mrs. O. G. Harvey of Garden City have recently moved to Hamlin to make their home. He is the new manager of the Shell Pipeline Company station north of town.

Hamlin city officials are searching for new sources for city water since the two Hamlin West Lakes have been declared unfit for domestic consumption.

TEN YEARS AGO

Considered news in the Hamlin community ten years ago were the items below, reprinted from the issue of The Hamlin Herald November 7, 1952:

About a score of Hamlin area people were among the estimated 6,000 who attended the Dick Nixon rally Monday evening at the Abilene airport. The Republican vice presidential nominee arrived some 30 minutes behind schedule.

Total of \$680 in cash prizes will be given for places in the forthcoming Christmas decoration contest for show windows, homes and yards, according to officials of the Chamber of Commerce.

FIVE YEARS AGO

Operating toward formation of a Board of Community Development to replace the Chamber of Commerce that ceased to function 2 years ago, the project was started last week with the joint meeting of the Rotary and Lions Clubs, when a round table discussion was conducted by a group of six that had been named from the two groups.

Although 30-degree temperatures dipped into the Hamlin territory Friday night, cotton farmers generally believe they were not seriously hurt.

"Life at Happy Knoll" by John Marquard was reviewed by Mrs. Tarlton Willingham as the program feature when members of the Woman's Literary Club met in regular session October 18 in the home of Mrs. John D. Ferguson.

The year 1957 will probably be remembered as a year with the greatest precipitation in the memory of old-timers of the territory. Total rainfall through Tuesday recorded at the government gauge maintained by Bill Rountree at the city pump station was 27.57 inches.

Mrs. J. M. Steele, Mr. and Mrs. W. G. Steele and son of Fort Worth visited in the homes of Mr. and Mrs. Virgil Steele and Mrs. Etta Bond over the week-end.

Mrs. Clyde Huff and George G. Malouf of Malouf's Department Store attended the greater Dallas fashion market's early spring and resort showings last week.

Bill Rountree, city water superintendent, was in Lubbock the first of the week to attend the annual convention and the workshop of the Texas Water-works Association.

Connally Plans To Cover State In Two Days

Planning for John Connally's "campaignathon" — another "first" in the Democratic nominee's pace-setting race — was in progress today.

Traveling all over the state in two days by air — making numerous stops in 48 hours — this project was being laid out by the headquarters staff.

The candidate for governor will ride a relay of airplanes in his "over the state in 48" operation.

Other "firsts" in Connally's campaign have included his morning TV "coffee with Connally," his Texas - spanning train trip from Tarkana to El Paso, and his enlistment of Mrs. Connally as a fellow campaigner. She has travelled thousands of miles, following her own itinerary, and is now on the campaign trail.

The fast-flying trip will begin Thursday, November 1, and end Saturday, November 3. It was described by Connally's headquarters as the most rigorous campaign trip ever seen in Texas.

It will enable Connally to visit many cities and towns that he would otherwise have had to by-pass because of the brevity of time and the vastness of Texas.

Some of the appearances will be at airports; others will be in the communities.

The air trip is designed as a climax to the Connally campaign, which has featured the hard-driving candidate's ability to maintain a fast pace over long hours. Because of earlier primary dates now in effect,

HONORED WITH RETIREMENT DINNER—Sixty persons attended the dinner hosted by the Celotex Corporation at Bunnie's Restaurant Saturday night in honor of six employees who will retire this week. From left to right are F. T. Wallace, H. E. Sharer, R. E. Brewer, W. H. Pickron, G. M. Bond and O. L. Wallace. Each man was presented with a watch and jewelry case. O. L. Wallace had over 40 years service with the company.

PIPER PATTY

Gloria Jenkins, a senior of Hamlin High School, has been selected as a contestant for the Miss Westgate of 1962-63 contest to be held at the Westgate Shopping Capital, Thursday, November 1, at 6:30 p.m.

Gloria, queen of Jones County Fair, in 1962, and the FFA Sweetheart of 1961-62, is the daughter of Mr. and Mrs. E. N. Jenkins of 438 South West First, Hamlin.

She is editor of the school yearbook, vice-president of the FFA, reporter of the National Honor Society, and Student Council Representative. She has been a member of the school band for seven years, and a student of the piano for ten years.

Her hobbies include horseback riding on her own quarter-horse, named Miss Rebel, serving as senior lifesaver for the American Red Cross, and working as an art student of Mary Eula Sears.

Pictures of Gloria and the other girls in the contest are being displayed at several locations on the Westgate mall, with their names and the schools they represent. Popularity according to vote, and judging of beauty, poise, personality, and dress will determine the winner. The judging will also incorporate a style show, scheduled to be televised.

The girl who wins the Miss Westgate crown, the runner-up, and the third place winner will receive \$250, \$150 and \$100 consecutively, in merchandise of her choosing from the Westgate merchants.

Which will it be—Connally or Cox? Listen to the qualifications of the two candidates in the Senior Government Assembly Monday, November 5. Those taking part in the assembly are students in the Government

and a December start on the vote-seeking trail, Connally, by November 6 will have completed the longest campaign in Texas history.

Agent Offers Advice on Storing Cotton Seed

It is time to think about storing cotton planting seed for another year says County Agent, Kirby Clayton. Stored cottonseed occasionally becomes infested with stored grain pests and ruin the germination. Insects are more likely to become a problem if a large percentage of the seed are cracked and if stored in bins which harbor insects at the time of storage. Cottonseed should be stored only in bins that have been cleaned thoroughly of waste material such as old grain, trash, feed sacks and other seed debris that furnish living quarters for insects. Sometimes it is necessary to "sweep down" the ceiling and walls and clean the floor to remove hidden waste. It is a good practice to cover cracks with builder's molding to eliminate seed collecting in them. Waste grain, seed and other materials beneath and near the bins should be destroyed.

I WOULD APPRECIATE YOUR WRITE IN VOTE FOR ME IN THE NOVEMBER 6 GENERAL ELECTION FOR JUSTICE OF THE PEACE, PRECINCT No. 5. THANKS.
J. B. EAKIN

Remember When?

Fall meant the rumble of cotton wagons—and mules at the city water troughs? Since those days—BUIE'S, in Stamford, has served the farmers of West Texas. Come See us.

After the bin has been thoroughly cleaned, spray with methoxychlor, TDE, or Malathion at the rate of 2 gallons per 100 square feet of surface area.

Farm stored cottonseed may be fumigated to control insects, but in order for it to be effective, it is necessary that the seeds are treated in a bin that has tight sides and bottom. Seed surface should be level to insure even penetration.

For further information on storing cottonseed, call your local County Agent.

BIRTHS

Mr. and Mrs. Bobby Wayne Seifres are the parents of a new baby girl, La Etta Roxan.

She was born October 28 and weighed 8 lbs. 4 oz.

The maternal grandparents are Mr. and Mrs. George Campbell.

Connally has always taken orders from Lyndon Johnson

LOOK AT THE RECORD:

- In 1937, before Connally graduated from college he was working in Lyndon Johnson's first race for Congress. Following Johnson's election, Connally went to Washington as Congressman Johnson's assistant.
- In 1948 Connally managed Johnson's Senate campaign, (87 vote landslide) which involved the scandalous vote frauds of Duval County Box 13 in Jim Wells County. Johnson took Connally back to Washington as administrative assistant (top man) in his Senate office.
- Late in 1949 Connally joined the law firm of Powell, Wirtz and Rauhaut in Austin. State Senator Wirtz was Under Secretary of the Interior when he resigned his Washington post to return to Texas to run Johnson's first Senatorial campaign in 1941.
- In 1952 John Connally went to work for Fort Worth oil man, Sid Richardson. Attorney General Will Wilson said, "Sid Richardson did not hire (Connally) for his training or knowledge. Sid Richardson hired him because he was LBJ's campaign manager." Lyndon Johnson had this comment on Mr. Richardson. "Nobody did more to send me to the Senate than the late Sid Richardson." Fort Worth Star Telegram, January 12, 1961.
- In 1956 Lyndon Johnson tapped Connally to place Johnson's name in nomination for President at the Democratic Convention.
- In 1956, 1958, and 1960 Connally was picked to lead the Johnson forces in the county and state conventions.
- In 1960, Johnson called on Connally to lead the drive to obtain the Presidential nomination for him. Later Connally was active in Johnson's Texas campaign.
- As a reward, Connally was tagged for the post of Secretary of the Navy shortly after President Kennedy visited Vice-President-elect Johnson's ranch. The New York Times termed Connally's appointment as "Mr. Johnson's biggest patronage plum." (June 4, 1962)
- In 1961, after less than a year on the job he pledged to fill for four years, resigned to run for Governor of Texas. Time magazine said Connally's announcement for Governor "certainly seemed to carry Lyndon Johnson's political fingerprints." (December 22, 1961) After Connally's victory over Yarborough, Time said "His mentor Lyndon Johnson thus tightened his grip on the Texas Democratic organization." (June 8, 1962)
- All over Texas long-time Lyndon Johnson backers are spearheading Connally's million dollar campaign. Why? Federal pay offs from the Kennedy-Johnson team.

With this background it's an insult to Texans' intelligence to pretend that John Connally is not the hand-picked candidate of Lyndon Johnson. Thinking Texans will reject this brazen attempt to merge State and Federal patronage into one gigantic political machine run out of Washington by L. B. J. Jack Cox is independent! He has no obligation to any one but the people of Texas. He owes no favors to the special interests in Texas or to anyone else. He will not betray the future of the people of Texas to get big name endorsements and big money contributions.

Texans who want to keep Texas independent of Washington control will vote for . . .

Jack Cox for Governor
